

URBINO® PISTOL GRIP STOCK FOR BERETTA 1301

URBINO STOCK ACCESSORIES

Optional adjustable cheek riser to use with optics. Cheek risers can only be fitted to Urbino Tactical stocks with molded riser support rails. Also available in coyote and OD Green.

Optional recoil-reducing SuperCell® or Limbsaver® butt pad. Also available in coyote and OD Green (Limbsaver pads are black on a colored plate).

A variety of single point pocket sling mounts are available for the Urbino product line.

Optional hook loop replaces the rear sling plate in Urbino Tactical stocks.

Optional SureShell® shotshell carriers mount to the cheek riser of the Urbino Tactical stock.

FEATURES + SPECIFICATIONS

- Urbino stock features a 12 1/2 inch length of pull for quick handling and use with body armor or other load bearing gear.
- Santoprene grip, padded at the rear to reduce recoil impact against the web of the operator's hand.
- Includes Benelli style rear sling loops for 1 1/4 inch sling webbing.
- Hole at the lower rear of stock accepts QD style sling swivels. *(included)*
- Optional Limbsaver® butt pad substantially reduces felt recoil.
- Optional adjustable cheek riser, developed to provide optimal cheek weld when using optics.
- Optional SureShell® Shotshell Carriers can be attached to the stock. *(riser stocks only)*
- Available for Remington, Mossberg, Benelli and Beretta semi-automatic shotguns.
- No gunsmithing required; All necessary hardware included.
