91140	Buttstock Shortening Kit for Moss 930, 940 and 990

TELESCOPING STOCK & ADAPTER KITS

Stock adapters accept most third-party AR-15 rifle stocks or pistol grips, allowing you to build your own custom shotgun stock from standard AR-15 rifle furniture.

Complete telescoping stock kits include stock adapter, Mesatac Trego™ pistol grip and push-button sling swivel.

Hydraulic recoil starter kits include the stock adapter and KynSHOT™ hydraulic recoil buffer, plus installation hardware (no stock or grip). The Mesa Tactical telescoping stock kits including KynSHOT hydraulic buffers are the best solutions for shotgun recoil management on the market; nothing else comes close.

LEO® TELESCOPING STOCK ADAPTERS AND CONVERSION KITS

LEO telescoping stock systems feature the factory stock elevation and are by far the most popular telescoping stock set-ups.

LEO TELESCOPING STOCKS

90180	LEO Recoil Stock Kit for Rem V3 (selectable damping, 12-GA)
91860	Stock Shim for Rem V3 Tac-13

If installing this LEO adapter on a Remington Tac-13 shotgun, you must also purchase stock shim part number 91860 *(US customers will also need an NFA tax stamp).*

HIGH-TUBE® TELESCOPING STOCK ADAPTERS AND CONVERSION KITS

High-tube kits feature a stock elevation similar to the AR-15 rifle, and thus require rail-mounted optics, so most kits include a top Picatinny rail. They accept any AR-15 rifle stocks or pistol grips.

Part No	Description
95360	High-tube Stock Adapter for Rem 870 (12-GA, no rail)
95380	High-tube Stock Kit for Rem 870 (12-GA, no rail)

90260	High-tube Recoil Starter Pack for Rem 870 (selectable damping, 12-GA, 9½ in rail)
92290	High-tube Recoil Stock Kit for Rem 870 (standard damping, 12-GA, 9½ in rail)
90360	High-tube Recoil Stock Kit for Rem 870 (selectable damping, 12-GA, 9½ in rail)

KYNSHOT HYDRAULIC RECOIL BUFFER

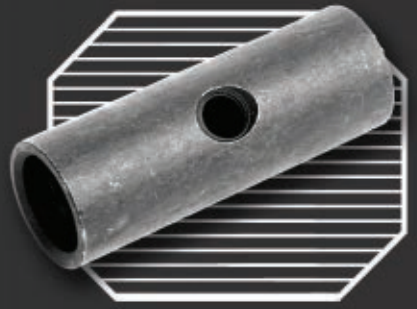
The KynSHOT Hydraulic Buffer is available separately and can accept mil-spec Buttstocks. It replaces the receiver extension tube on all Mesa Tactical telescoping stock systems. These buffer assemblies cannot be fitted to AR-15 rifles.

The RB5100 selectable damping hydraulic buffer comes with three damping settings.

Part No	Description
92240	KynSHOT RB5103 Hydraulic Buffer (standard damping, mil-spec)
91320	KynSHOT RB5100 Hydraulic Buffer (selectable damping, mil-spec)

REPLACEMENT ANTI-ROTATION DOUBLE-ENDED QD SOCKET

These new anti-rotation replacement QD sockets ensure sling swivels cannot spin 360 degrees, reducing the tendency of sling webbing to tangle. They are for LEO stock adapters, not High-tube adapters. They can also be used to upgrade Mesatac® Faro® adapters for the FN SCAR rifle.



Part No	Description
90830	Replacement Anti-Rotation Double-Ended QD Socket

BREACHING SHOTGUN STOCK REPLACEMENT PLUG

This steel plug can be threaded onto any Mesa Tactical stock adapter to replace the receiver extension tube or hydraulic buffer. It features a machined QD socket to accept push-button sling swivels, and includes the Mesa Tactical AR-15 rifle Armorer and Bartender's Tool.

Part No	Description
95270	Breaching Shotgun Stock Replacement Plug

SURESHELL® SHOTSHELL CARRIERS

Mesa Tactical redefined the on-gun shell carrier 20 years ago with the introduction of the rugged, reliable and widely copied SureShell carriers. Aluminum yokes are machined from billet aluminum and use a single elastomer shell retention tube; polymer yokes are injection-molded glass-filled nylon and feature two elastomer shell retention tubes.

SIDE MOUNT SHELL CARRIERS

Side-mount carriers replace the shotgun trigger pins with custom threaded fasteners to securely fasten the carrier assembly to the side of the receiver.

REMINGTON

SureShell carriers for the Remington 870 will also fit the Remington 1100 and 11-87 semi-automatics (except right-side carriers).

Part No	Description
